

RockTopo climbing guides are intended to provide documented information, directions and routes descriptions for the rock climbing at the cliff or area covered by the guide. The guides are intended to supplement the local published guides to these climbing areas. These guides will be updated to reflect new routes and to provide current access details. RockTopo guides may be obtained by free download from the Internet. RockTopo guides may be distributed free of charge.

RockTopos Climbing Guide Costa Blanca Ontinyent

A free climbing guide provided by RockTopos
<http://d.1asphost.com/costablancarock/>
Published 2005

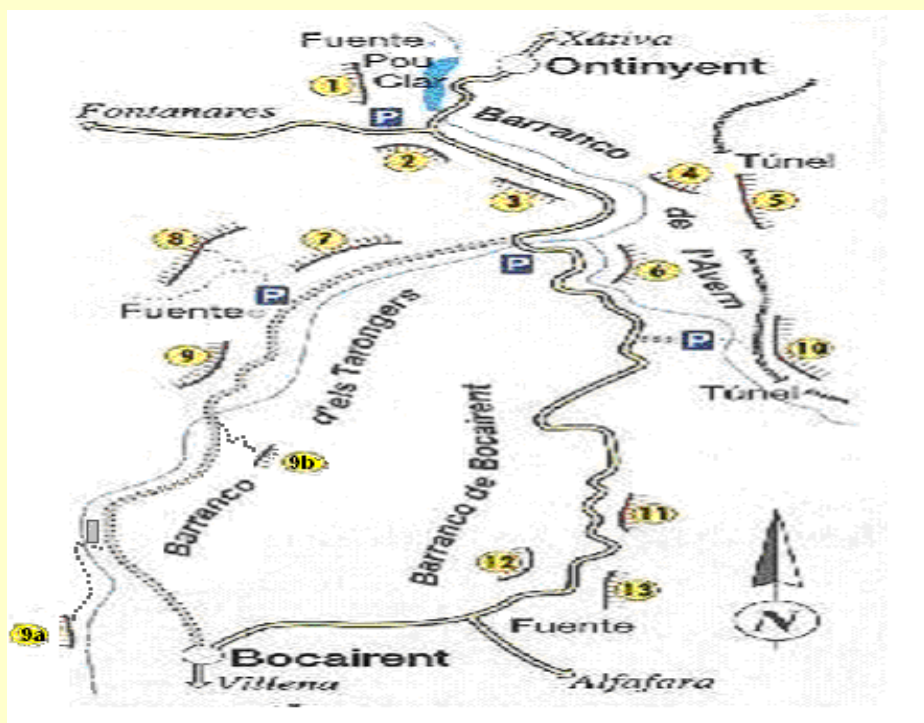

There are many different climbing areas close to the town of Ontinyent in the ravines called the Barranco de L'Avern, the Barranco D'els Tarongers and the Barranco de Bocairent. The road follows the Barranco de Bocairent which makes the crags here a little noisy.

Typically the limestone rock is excellent and characterized by tufas, overhangs and hanging stalactites.

GENERAL APPROACH

All the crags are in an area south of Ontinyent (Onteniente), next to the major highways of the A-330, the A430 and the N-340. The climbing is easiest approached from the town by going towards the towns of Bocairent and Villena. From Ontinyent take the C3316 and immediately you can see Finestres on the right below the level of the road. On a hot day this area is popular and the river is a cooling respite from the sun.

Detailed approaches and where to park are included at the start of each sector.

The Sectors		Number of routes	Typical grades
1. Finestres	Unusual climbing past square holes in the rock	5	7a – 7c
2. La Monja		14	V – 6c+
3. El Pont		9	6a – 7a
4. La Cequia	Vertical wall high above the road.	23	V – 6a+
5. El Gegant		19	6b – 7a+
6. Cagallo del Gegant		36	V – 7a+
7. El Cami		16	V – 6b+
8. El Deposit	A short slightly overhanging wall.	22	6a – 7b
9. La Visera	Steep climbing on mostly goods holds – good	16	6b+ - 7b+
10. Pathside	Above the path – newly developed – poor	3	?
11. Patiras	The most extensive cliff	35+	6a – 7a+
12. Pylon	Only for those climbing 7c and above	10	7c – 8b
13. Tufa Wall	Black wall covered in tufas – can be prone to bad seepage	9	6c+ - 7c
14. La Via		26	
15. Heavy		2	6c+ - 7b
16. Frigel		3	7c - 8a
17. Frigel		4	6c – 7b
18. La Cantera		1	6b

INFORMATION

Every effort has been made to make this topo as accurate as possible however the information provided is on an as-is basis. The publication of this topo does not imply any right of access to the area.

New information and updates to this guide are available at

<http://d.1asphost.com/costablanca/rock/>

If you have any comments, additional routes or corrections please e-mail these to

rocktopos@hotmail.com

WHERE TO STAY

It is prohibited to camp anywhere in the sierra. There are hotels and hostels in the town of Ontinyent.

WATER

There is water at Pou Clar and at the parking for El Camí. Also at the entrance to the ravine Bocairent, at the cross of Alfafara.

ORIENTATION

The different orientation of the sectors allow climbing throughout the year by choosing the right time of the day. It is possible to climb in the very hot summer by choosing a crag in the shade, but breeze is useful. If it's too hot you have the option to swim in the river.

North facing: La Monja, El Pont and Pou Clar.

South facing: La Cequia and Patirás.

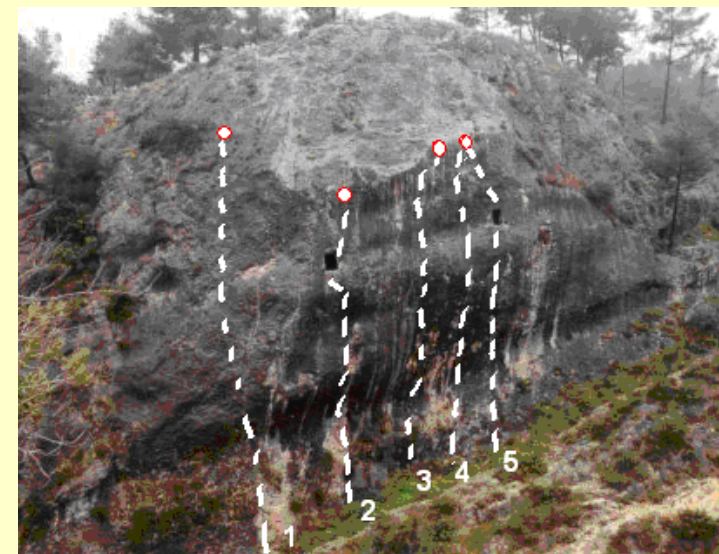

West facing: La Via and El Gegant.

EQUIPMENT & HEIGHT

All the major areas are equipped with expansion bolts with occasionally resin bolts. All the routes can be climbed with a 60 meter rope as the belays are less than 30 meters except "les mil y una nit" on the cliff La Via, where there is an belay station halfway up.

Sector 1: Finestres (Barranc de l'Avern - Pou Clar)

Finestres and La Monja are visible from the parking close to Pou Clar, 2km from Ontinyent. This wall is characterised by the square holes which are the openings to small rooms inside the rock. The sector faces east and receives the sun in the earlier morning.

**Approach
5 minutes**

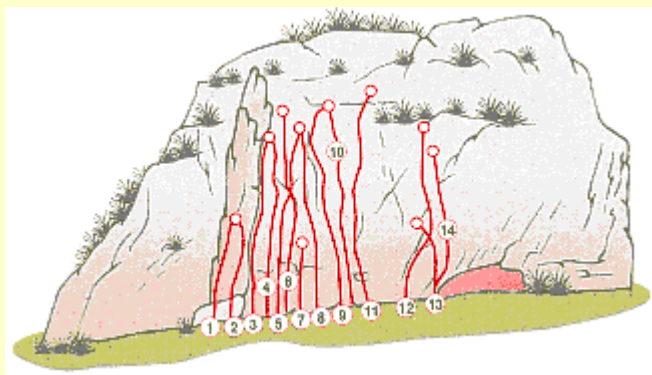

The routes are described from left to right.

- 1.- **Per a Calfar** 7a?
18m. Climb the left edge of the wall.
- 2.- **Putos Hijos de Pou Clar** ?
16m. Through the bulge past the square hole.
- 3.- **Entre Morsas** 7c
16m.
- 4.- **KK Lorsai** 7b
16m.
- 5.- **El Maromo de las Raiban** 7a
16m. Clima direct to the righthand hole in the wall.

Sector 2: La Monja (Barranc de l'Avern, Pou Clar)

La Monja is almost north facing so avoiding the sun for most of the day. It is also in the bottom of the gorge so it is sheltered from the winds. See the approach and parking for Finestres.

Approach
5 minutes

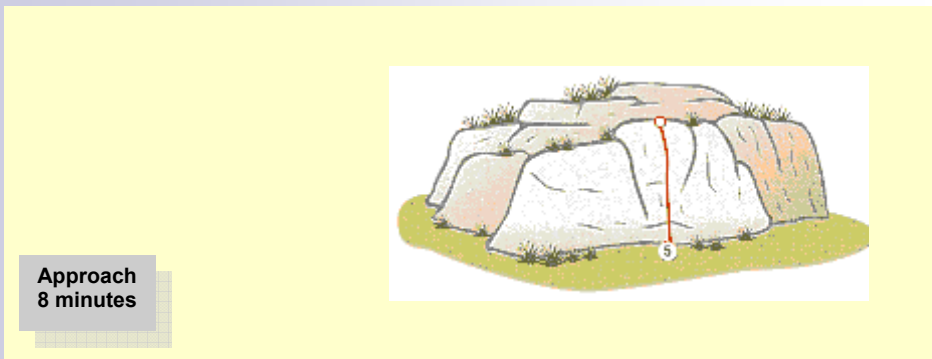

This section is described from left to right.

Sector 4: La Cequia (Barranc de l'Avern)

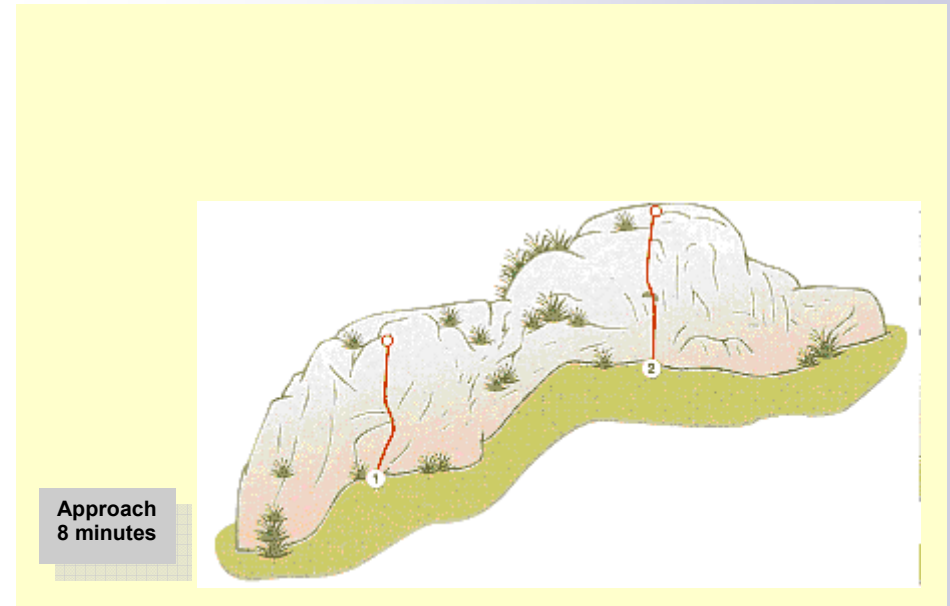

Take the C3316 and park as for El Pont. For La Cequia, El Gegant and El Cagalló del Gegant go down under the bridge along a well marked path. When the path disappears there is a smaller path through the reeds to a small ditch at the base of the wall. La Cequia is the cliff running up the hillside. It is south-west facing and will catch the wind.

The routes are described from left to right.

Sector 5: El Gegant (Barranc de l'Avern)

This impressive sheet of rock sits high above the valley floor and offers some superb face routes. Some of the climbs are ready for a re-bolting, though the gear is at least adequate. This faces south-west and receives the afternoon sun. From the parking go under the bridge, cross the river bed and scramble up to the water conduit. Go left along this and cross over it and scramble up the ravine side, going left of the pinnacle to reach two trees on the ridge. Behind these take the rocky band via a chimney to the second pylon on the ridge. Just past this take the ramp line down to reach the upper part of the wall. This takes 10 minutes from the parking.

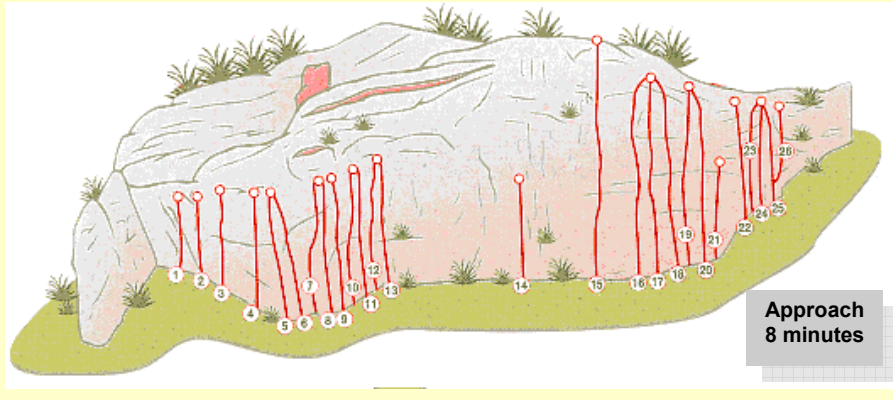

The routes are described from left to right.

- 1. **Bamcalina** 6a
15m. Poor line up the left edge of the wall.
- 2. **Satiro** V+ *
30m. Climb the rib past old bolts and threads. Some traditional gear is required.
- 3. **Milotxo** V+ *
28m. The edge of the face. Traverse left along the ledge and take the line of new bolts, then older ones higher up.
- 4. **Bordi** 6a **
28m. Trend lightly left up the rib and the obvious thin crack.
- 5. **En un moment** 6b **
28m. As for Bordi but follow the line of new bolts to the right. Sustained climbing.
- 6. **Pinoxo** 6a *
28m. The line of older bolts up the black streak.

- 10. **No talies el telix** 6b
30m.
- 11. **El cerdo volador** 6c
30m.
- 12. **Baixa 41** 6c
30m.

20m.
- 24. **Pioilo** 6a
20m.
- 25. **Cap arnut** V
20m.
- 26. **Que facil** V
20m.

Sector 14: La Vía (Barranc de l'Avern)

Pared de la Vía: Continue along the main road, up the valley for 1.4km and leave the car on the left where you leave the river. In front of you is the cliff above you rising above the railway embankment. It is the highest cliff with an extensive number of routes.

The routes are described from left to right.

- 1. **Capol** **6a+**
12m. The awkward leaning crack.
- 2. **Brimonster** **6b+**
12m. The overhanging crack.
- 3. **El principe** **7a+**
18m. The white rib and thin crack line.
- 4. **Alex** **6c+**
18m. The grey steak and the yellow streak above.
- 5. **Orelles curtes** **7a**
26m. The wall passing left of the flake, the bulge (crux) then trend right to the lower off.
- 6. **Orelles llargues** **6c**
26m. Yellow wall—right of the flake and finishing up the leaning wall.
- 7. **Johny Mendieta** **6a+**
28m.
- 8. **La ley del agarre** **6c+**
28m.
- 9. **Caxipolla** **6c**
30m.

- 7. **J.M.Tempranmillo** **6b ***
28m. The yellow streak with old bolts.
- 8. **Sangunsa** **6c+ ****
28m. The pillar of grey rock to the right. Protected by old bolts and threads.
- 9. **Botamons** **6c ****
28m. Climb 10m to the wriggling crack and black drainage streak and continue in a direct line above.
- 10. **Sandalio** **7a *****
28m. A tricky lower wall leads to a grassy ledge. Climb scoops and bulges in the upper wall.
- 11. **Sanson s escora** **7b+ ****
28m. Up to the right side of the ledge and climb to a hard finish. The lower off is left of the bush.
- 12. **Man kane** **7a+ ****
28m. Excellent line of new bolts.
- 13. **Hector** **7a *****
28m. The blue bolts mark this line. Tricky upper rib.

The next route is 20m to the right of the orange wall.
- 14. **Morir d'amor** **7b ****
20m. The left-hand line up the wall.
- 15. **Tot ras** **7a ****
20m. Pass left of the deep hole.
- 16. **Sesion de noche** **6c ****
20m. Gain the deep hole from the right.
- 17. **Te de tot** **6b+ ***
20m. The direct line to the right.

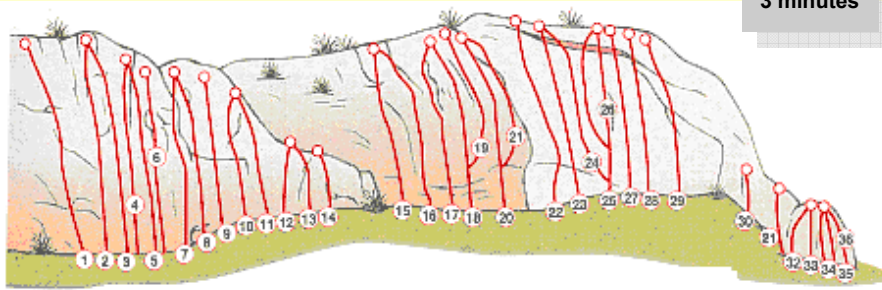

The final two routes are a further 50m to the right.
- 18. **Anillo de cuero** **6b+ ***
15m. The left line.
- 19. **Puntmort** **7a ***
14m. The right line.

Sector 6: El Cagalló del Gegant (Barranc de l'Avern)

This sector is opposite the road from the parking and just above the water channel - the approach taking about 3 minutes. From the parking place, take the track under the bridge and cross the river bed. Scramble to the water conduit and go right until it's possible to cross over using a plank which brings you to the base of the wall.

Facing south-west it is sheltered and gets a lot of sun.

**Approach
3 minutes**

The routes are described from left to right.

- 1.- **S'has golo** **7a+**
18m. 4m left of the bridge, fierce pocket pulling through the initial bulge.
- 2.- **Barrufets** **6c ***
18m. Use pocket through the right edge of the smooth bulge. Easier up the rib to an old belay.
- 3.- **Pitufos** **6a ***
18m. Take the rib immediately right of the bulges. Sustained climbing with fingery moves to reach the thin crack.
- 4.- **Pelawaudios** **6a ***
18m. Aim for the yellow scar at 6m, go through the bulge and steep wall above.
- 5.- **Esperó boxerini** **6a ***
18m. The wall below the prominent arete high up the buttress. The arete is very pleasant. Lower off to the left.
- 7.- **Dolores** **6a ***
18m. The line of new bolts.
- 8.- **Tirali Calceti** **6a+**
18m. From the cave at the base of the wall climb take the narrowing slab, orange groove and final leaning wall.
- 9.- **Cap de caixo** **6a**
14m. Climb left of the yellow flake.
- 10.- **Dolores con piano** **6a**
14m. New bolts through the overlap and up the orange wall.

- 8. ? **7b ***
m. Start below the platform and climb the smoother wall on tufas..
- 9. ? **Project**
m.
- 10. ? **6c+ ***
m. At the very right side of the crag climb the large tufas.

Sector 13: Tufa Wall - Barranc dels Tarongers

From the parking follow the path, passing **Patirás** and **Pylon** until you reach the old ruined mill house. Find a path leading from behind the mill house next to a water trough and follow this along the right bank eventually traversing slabby rock to reach the tufa laden crag. The approach takes 20-25 minutes from the parking place.

**Approach
25 minutes**

The routes are described from left to right.

- 1. ? **6c+ ****
25m. At the left side of the crag. Climb the slab to a steep wall and pull into the cave. Climb through the roof of this and make a long reach to gain better holds.
- 2. ? **6c ****
25m. Slightly easier line 3 metres to the right.
- 3. ? **7a+ *****
25m. Very obvious line up the large tufas. Pull slightly rightwards where it steepens, crux, and then more easily to a belay.
- 4. ? **7a+ ***
25m. Line to the right joining route 3 at the bulge.
- 5. ? **Project**
m.
- 6. ? **7c ****
m. **From the platform starting just left of the tree climb the tufa's up the overhanging wall.**
- 7. ? **7c ****
m. **From behind the tree climb the pocket and tufa cover wall to reach a large hole. Pull through the roof above to the belay.**

- 11.- **Flamingo** **6a**
14m. The grey rock and the shallow groove.
- 12.- **Tortugo** **6a**
12m. Climb the overhangs and broken flake left of the easy groove.
- 13.- **L'oratge** **IV**
10m. The left-hand flake.
- 14.- **Obri llaunes** **IV**
10m. The shallow chimney.
- To the right is slanting ramp and then next buttress.
- 15.- **Sopa de ganso** **6a+**
20m. The left facing orange crack.
- 16.- **Va que es per avui** **6a ***
20m. Start right of the large flake cross the overhang to reach the thin crack. Good sustained climbing.
- 17.- **Rocabola** **6a+ ***
20m. The red flake provides a steep start. Continue up the left side of the bulging rib.
- 18.- **Panxa verda** **7b ****
20m. The green bolts mark this horrendously hard route.
- 19.- **Mitja via** **7a ***
20m. Direct through the smooth scoop starting as for Panxa Verda.
- 20.- **M'han fotut** **7b+ ***
18m. The right side of the scoop is a fierce fingery route.
- 21.- **Bon tacte** **7a+**
20m. The right-hand finish to M'han Fotut.
- To the right the buttress is capped by a narrow roof. The rock is good after the loose ledges at the base.
- 22.- **Si hay sirocco no te comas el coco** **6c+**
18m. The tilted grey rock—trend left to the belay.
- 23.- **Ara no bailo** **6c**
18m. Through the lower bulges via the hanging ramp/niche.
- 24.- **Marti tirali** **6b ***
18m. Pull over the rightside of the bulge and goleft up the fine grey wall.
- 25.- **La penga dels botifarres** **6a+ ***
18m. The direct line above the start of the last line.

Sector 6: El Cagalló del Gegant (Barranc de l'Avern)

- 26.- Pablito clavó un clavito 6b
18m.
- 27.- De repent en parapent 6c+
18m.
- 28.- Secció homos 6c
18m.
- 29.- Desastre pe un sastre 6b+
18m.
- 30.- Xe quin bolet 6a
18m.
- To the right is a rock tower above the dam.
- 31.- Que content que estic 6c
18m.
- 32.- Relajació i recreo V+
12m.
- 33.- Opa ostil 7a
12m.
- 34.- Cap finet 6b+
10m.
- 35.- Mano guarra 7a+
10m.
- 36.- La trampa 6a
10m.

- 9. ? 8a+ ***
18m. As for route 8 to the roof. Pull past the hole and up the stepped wall above.
- 10. ? 8b+ ***
20m. Climb tufa's up the wall and cross the wide roof following the crack line.

Sector 12: Pylon (Barranc dels Tarongers)

From the parking area follow the footpath next to the river passing **Patirás** and shortly after crossing the stream bed find a foot path taking a steeper line up the hillside. Aim for the cliff close to the electricity pylon. The approach takes about 15 minutes from the parking place.

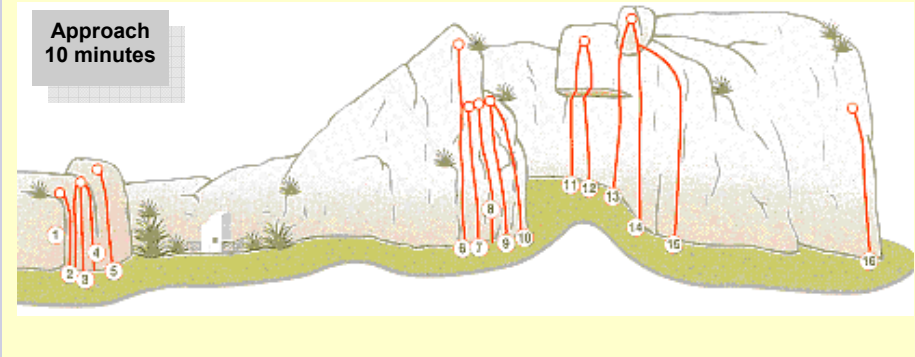

**Approach
15 minutes**

The routes are described from left to right.

- | | | |

Sector 11: Patirás (Barranc dels Tarongers)

Right-hand side wall is actually the first section reached when you approach the crag from the parking. It sits above the path behind the trees. The left side is bounded by the large roof. Scramble up the slope to the base of the wall.

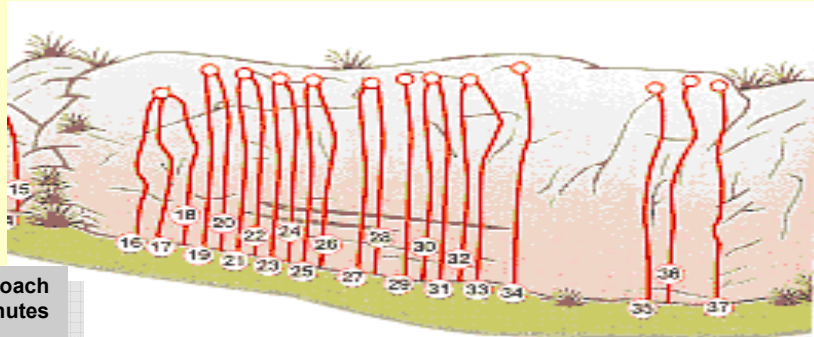

**Approach
8 minutes**

- 23. **Modernar** **6c+ ***
16m. The pockets up the wall just right of the large roof.
- 24. **Los pelillos de mi culillo** **6c**
16m. The tufa to the right is ok until the last move. The loss of a hold close to the belay makes a frustrating finís.
- 25. **Burrucanero** **6c ****
20m. Clima to the tufa and then pull through the bulges above on goods Lodz.
- 26. **Ma Rigut** **6b+ *****
20m. The pockets up the steepening wall just left of the grey streak.
- 27. **Penanegra** **6b+ *****
20m. The shallow groove to the right, again on pockets.
- 28. **Sicosis Anielica** **7a+ ****
20m.

m.
- 15. **Espolo** **6a+**
m.
- 16. **Plaqueta** **A1**
m.

Sector 8: El Deposit (Barranc dels Tarongers)

A quite short wall of orange rock and is not very impressive on first acquaintances. It is in the sun for most of the day, being south west facing.
 Park beside the water pumping station. Take the footpath up the gully to it's right. The crag appears on the right after 5 minutes climbing. El Visera is visible to it's left.

Approach
5 minutes

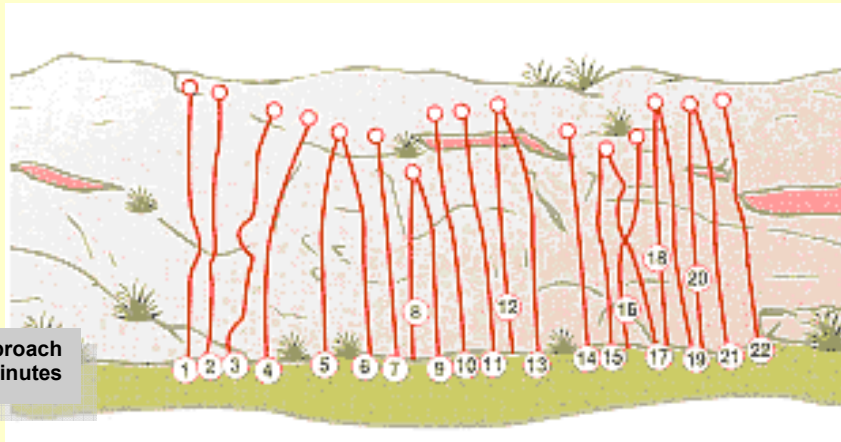

The routes are described from left to right.

- 1. **Cala d'or** 6a
12m. Steep start and very fingery wall—not so good.
- 2. **Masa** 7a
14m. Directly up the wall.
- 3. **Tragaboles** 6a+ *
14m. The tufa's and pockets in the wall to the right , starting just right of the bush.
- 4. **Styl de butifarra** 7a+ *
14m. The wall behind the bush.
- 5. **Dylyn dylon** 7a *
14m.
- 6. **Placa del diamante** 7b *
14m.
- 7. **Tuarek** 7a *
14m.
- 8. **Butifarras** 6c *
14m.

- 8. **A Pdraes** 6c
14m.
- 9. **Campanes** 6c+
14m.
- 10. **Tragaperres** 6a+
18m.
- 11. **No Me Xalo la Mano** 6b+
18m.

Sector 9: La Visera (Barranc dels Tarongers)

This is a steeply over hanging wall with some very good strenuous lines. The routes are described from left to right. The wall goes into the shade from mid-afternoon. Take the approach as for La Deposit. From the cliff walk left across some rock to the cliff.

- 1. Mision Imposible**
14m. Steep start and very fingery wall.
- 2. Callo Largo**
16m. Undercut to reach the hole and use the poor pockets to gain a good hold next to the belay.
- 3. ?**
16m. The white bulge right of Call Largo with a chipped hold.
- 4. Eterna**
16m. The obvious hanging corner and flake. Start up the tufa.
- 5. Antropomorfo**
16m. Steep but on very good holds.
- 6. Altair**
16m.

Sector 11: Patirás (Barranc dels Tarongers)

Middle -leftside

- | | | |
|---|--------------------------|--------------|
| 7. Prematuro | <input type="checkbox"/> | 7a * |
| 16m. Climb small pockets until it is possible to move right to the hole and bush. | | |
| 8. Polivalent | <input type="checkbox"/> | 7b * |
| 16m. The hanging orange corner. | | |
| 9. La Cara al Vent | <input type="checkbox"/> | 7a+ * |
| 16m. The large diagonal slot up after a steep start. | | |
| 10. Tot Mon Tesor | <input type="checkbox"/> | 7a+ * |
| 14m. | | |
| 11. Fraude Millonario | <input type="checkbox"/> | 6a+ |
| 14m. The line on the left of the arête. | | |
| 12. Tecnologia Puta | <input type="checkbox"/> | 7a |
| 14m. The line on the right of the arête. | | |
| 13. Mata Castellans | <input type="checkbox"/> | 6b+ |
| 14m. Direct up the side wall. | | |
| At the right end of the sector is a scruffy slab. | | |
| 14. Pelaiilla | <input type="checkbox"/> | V |
| 10m. Take the yellow streak for 4m then easier ground to the lower off. | | |
| 15. Teoria en la Practica | <input type="checkbox"/> | IV |
| 10m. The centre of the wall. | | |
| 16. Si una rosa es una rosa | <input type="checkbox"/> | IV |
| 10m. The rib and slab on the right. | | |

Sector 10: Pathside (Barranc dels Tarongers)

Just along the path from the parking beside the water pumping station, but before reaching the spring is a small wall directly above the footpath. There are currently 3 bolted lines. Probably not worthwhile stopping to climb!

**Approach
3 minutes**

m.
- 3. unknown? ?

Sector 11: Patirás (Barranc dels Tarongers)

Patiras is one of the largest and most widely developed of the cliffs in the area. Take the track left from the pumping station and just before the house follow the footpath leading off behind. The sector is a few minutes further along around the corner. Left-side. This is the furthest part of Patiras when approaching the cliff from the parking. The buttress is next to the footpath and for many routes you belay standing on it. Most routes start by easier climbing to reach caves at 5 metres. The wall appears randomly littered with bolts so trying to identify the lines is confusing at first.

**Approach
8 minutes**

- 1. unknown? ?
20m. The left most line seems to climb mostly grass.
- 2. unknown? ?
20m. Climb left of the small cave to reach a large pocket in the slanting crack line. Continue through the roofs.
- 3. unknown? ?
20m. Climb to the right of the small cave and on up the steepening headwall.
- 4. unknown? ?
20m. A line 2 metres to the right.
- 5. unknown? ?
20m. Right again up the wall, 2 metres left of the bigger cave.
- 6. unknown? ?
20m. The left arete of the cave and crack line above.
- 7. unknown? ?
20m. Cross the roof of the cave rightwards to reach the pocketed crack line.
- 8. unknown? ?
20m. Climb out of the right side of the cave, past a hole and to the left of a small overhang.
